

# SPEAR

**GOGGLE**

MIL-PRF-32432A | STANAG 2920/4296 | ANSI Z.87 | EN166B

When creating SPEAR, we took the traditional goggle format and added purpose-driven features to maximize comfort and protection. It has a SPEAR Elastic Strap with Tri-Glide System to adjust length and quick release key connections; it is compatible with the Wiley X ARC Rail Attachment System & the Team Wendy EXFIL® 2.0 and 3.0 rails, securing you a com-

fortable fit when wearing a tactical helmet; and it has a removable gasket (Facial Cavity™ Seal) for added defense against pollutants and irritants. This, matched with its symmetrical venting system and its NVG compatibility, the SPEAR is a solid and versatile addition to your arsenal of protective equipment.

**STANDARD LENSES** \*LIGHT TRANSMISSION VARIES +/- 3% DEPENDING ON MODEL

	GREY	SELENITE™ POLYCARBONATE	WEIGHT: 28 GRAM	LT: 15%*	COATING: HARD COATING, ANTI FOG
